## NEWS FROM THE METROPOLIS

## Aid for Savannah.

NEW YORK, Sept. 18.—A special meeting of the Chamber of Commerce is to be held in this city Tuesday afternoon to consider the appeal for aid to the sufferers by yellow fever in Savannah, and to take measures for their relief.

Considerable uneasiness prevails here in consequence of the report of the appearance of the epidemic in neighboring cities, though the officers of the Board of Health pronounce the city generally in a healthy condition, and state that every precaution has been taken to prevent the spread of the disease. Should it appear, all physicians and surgeons have been cautioned to report any cases coming under their notice, no matter how isolated or how slight, and it is believed that no case can exist in the city without the knowledge of the Board of Health. Dr. Janeway, Health Commissioner, does not think it possible in the present low temperature of the disease will develop or spread, and that, which will occur soon, would surely kill the disease.

**For Europe.**  
Seven steamers sailed from this port for Europe Saturday, all having full passenger lists and full cargoes. In some instances companies refused freights offered, for lack of room. The exports of provisions continue very heavy. The vessels sailing were the *Germic* and *Queen*, for Liverpool; *Canada* and *Australia*, for London; *California*, for Glasgow; *Mosel*, for Bremen; and *France*, for Havre.

**About Ross Tweed.**  
Regarding the arrest of Tweed by the Spanish authorities and his expected return to the United States, Sheriff Connor said today he had as yet received no intelligence from Washington of the arrest. He did not know whether Tweed was to be turned over to him or kept in the custody of the United States. At present the matter was very much mixed up.

**Personal.**  
Mr. and Mrs. Sartoris, General Grant's son-in-law and his wife, Nellie, expected, arrived here today from Liverpool on the steamer *Celtic*. Ex-Secretary of the Treasury Hugh McCulloch is also on his way to this city from Europe.

## THE LATE STORM.

## Damage by Gales and Water at Various Points.

PITTSBURG, Sept. 18.—It rained hard at all points above Saturday night and all day yesterday and last night. There is a prospect here of a very heavy rise, and some apprehension of a flood. At 10 A. M. there is fourteen feet four inches of water, and rising rapidly from both rivers.

PHILADELPHIA, Sept. 18.—In the city yesterday considerable damage was done by the heavy storm, which has prevailed all day. A portion of the roofs of the main Exhibition building and Machinery Hall were blown away, and injury was done to the exhibits. American and English exhibits suffered most. Several other of the smaller buildings within the grounds were somewhat damaged by the storm. In some sections of the city trees were blown down, roofs and chimneys carried away, and several persons injured, none seriously.

BALTIMORE, Sept. 18.—A heavy rain and wind storm raged all day yesterday and last night. It is feared that considerable damage has been done to shipping on the coast, though no casualties have yet been reported.

## The Indian Campaign.

## By American Press Association to the STAR.

CHICAGO, Sept. 18.—A special from Bismarck says the steamer *Nellie* Peck arrived yesterday, bringing a number of officers from the Yellowstone. They report that Sitting Bull crossed the Missouri above Wolf Rapids, about thirty miles below Fort Peck, about the 9th, the column being about three miles long, and estimated at five thousand men.

The Seventh Cavalry, under General Reno, and a battalion of the Sixth Infantry under Col. O. H. Moore, were immediately ordered to Fort Peck, and Gen. Terry followed on the steamer *John H. Chambers* with one company of the Sixth Infantry from Gen. Hazen's command. There is little hope, however, that he will succeed in engaging them.

A recent rise in the Yellowstone of about two feet has enabled boats to commence running to the mouth of the Glendevie. The Josephine Carroll and *Far West* left Ford on the 14th for Glendevie. The troops designated to remain on the Tongue River are now well supplied for the winter, but there is a great scarcity of forage.

Trouble is expected at the Indian agency on the upper Missouri, on Tuesday 19th inst., the day fixed upon by the Government to disarm the Indians and take from them their ponies. It is not probable that the Indians will submit quietly to this proceeding, although the military say they do not anticipate any serious trouble. Those who know these Indians' character well, say that when the disarming proceeds commences it will require the utmost vigilance on the part of the military to prevent a massacre of the frontier settlers at unprotected points, and more troops are being distributed along at different agencies, where resistance on the part of the Indians may occur.

The following communication from City Civil Engineer A. L. Anderson was referred to the Committee on Bridges:

"To the Hon. Board of Public Works:  
"I have the honor to report that the bridge across Millcreek at Hopple street is in a dangerous condition. Most of the timbers of the superstructure are rotten so that the present bridge can not be repaired to advantage without taking it down.

"The bridge could be replaced in its present form as a wooden truss at less cost than upon any other plan, but in view of the low price of iron that now rules, it would, in my opinion, be much better to build an iron truss bridge at this point.

"Inasmuch as the bridge is liable to fall at any time, I have recommended that it be blocked, and that it should be permanently condemned.

"Respectfully submitted,  
"A. ANDERSON,  
"Chief Engineer."

that effect before the church produced the profoundest sensation, melting many to tears. Rev. Mr. Jenkins testified to how he saved the girl's life by the greatest effort, and by finally taking her into his own home. Her arms were found to be black and blue from recent beatings, and her clothing miserably insufficient. He induced her to promise not to take morphine as long as she was cared for. It was also brought out that Mr. Lothrop's threats to relatives, who have heretofore known of his inhumanity, have kept the matter secret.
